Let's Start!

Pronunciation Spot: Hustle down to Computers Plus for the sale!

Learning Outcome

Explain about technology and technical problems in communicative situations.

Ask your partner:

- How often can you see yourself trading up on your phone or computer?
- Where can you get the newest gadgets? How expensive are they?

Can Do Statements

- I can talk about technology and gadgets.
- I can say and use the sound *t*.
- I can speculate about feelings and impressions.

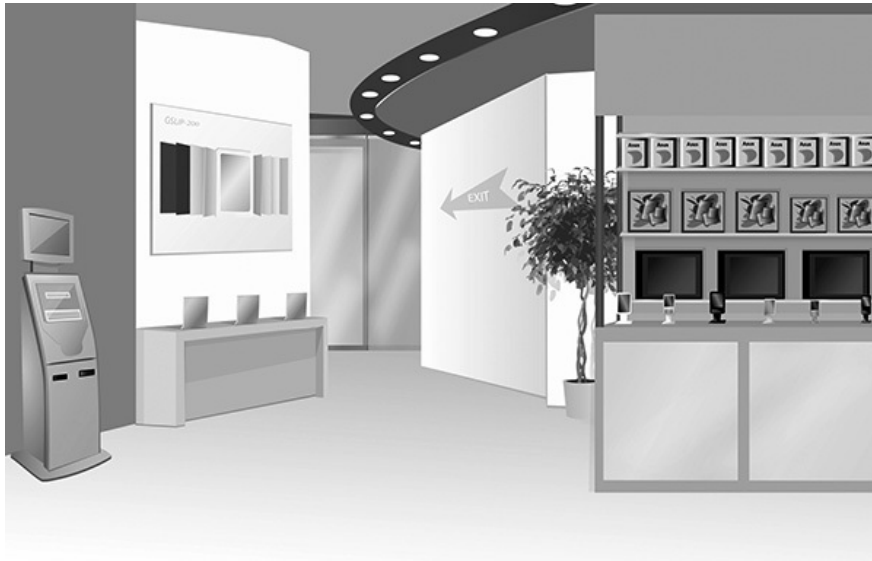

Let's Explore!

There is such a **din*** in the bustling crowd!

* A "din" is a loud unpleasant noise that goes on for a long time.

Instructions: Read the text aloud.

"Why is the mall so crowded today?" I ask myself. I look at my watch and wonder, "Why so early, too?" Oh no! Today must be the day the latest gadgets are being released at the computer store. I must have forgotten to mark it on my calendar!

I hate being jostled in the crowd, listening to everyone talking about the next best thing. As I hasten through them, looking for my favorite kitchen store, I am reminded of Christmas shopping crowds. I must find a way through the seething mass of laptop, notebook, cellphone, and tablet lovers!

Everyone must be here today! I mustn't panic. I must just hustle along, head down until I catch a glimpse of the gourmet shop I want to visit. Once inside, there are no more crowds to wrestle.

The din softens. I must be the only one here, standing among the glistening pots and pans. I breathe a sigh of relief and turn to take in the sea of modern cooking utensils. This must be heaven!

Let's Practice!

Now we're going to practice linking the "t" with "*must*".

Instructions: Choose the words from the word bank to correctly complete the sentences.

Learning Points

Pronouncing Silent Letter Words

The 't' is often silent in English when it comes in the middle of words, and sometimes at the end.

When you pronounce these words, you soften the sound or leave it out altogether.

Pronounce these words that soften the 't' sound.

pretty	pri_dy
city	si_dy
pity	pi_dy

Pronounce these words that leave out the 't' sound.

hasten	hay_sun
glisten	gli_sun
Christmas	Cris_mass
gourmet	gore_may
listen	lis_sen
soften	sof_fen
wrestle	res_sull
watch	wa_ch

Examples:

- *I hate being jostled in the crowd, listening to everyone talking about the next best thing.*
- *As I hasten along, looking for my favorite kitchen store, I am reminded of Christmas.*

Learning Points

Linking and Deletion With Must

When a word that ends with a consonant plus *t* is linked to a word that begins with a consonant, you often drop the final *t* at the end of the first word.

When you delete or drop the final *t*, the consonant sound before the *t* links smoothly into the next word.

You must be starving = You mus_be starving

When *have* follows *must*, *have* is reduced to _uv or _a.

The 't' sound joins the reduced *have*.

must have = mus_tuv or mus_ta

Phrase	Pronunciation
must find	mus_find
must be	mus_be
must just hustle	mus_jus_hus_sul
must have forgotten	mus_tuv forgotten mus_ta forgotten

Examples:

- *I must find a way through the seething mass!*
- *Everyone must be here today!*
- *I must just hustle along.*
- *I must have forgotten to mark it on my calendar!*
